Theme Overview
ISCABD 2024

Congenital anomalies, often caused by genetic or multifactorial factors, are among the leading contributors to newborn morbidity. Addressing these anomalies effectively requires a thorough understanding of developmental biology and the implementation of early diagnostic measures. However, the limited availability of diagnostic tools, along with the invasiveness and radiation risks associated with some existing methods, continues to contribute to delayed diagnoses. There is a pressing need for accurate, non-invasive, and affordable diagnostic alternatives, with molecular genetics emerging as a promising approach that meets these criteria without relying on radiation.

Faculty of Medicine, Public Health, and Nursing, Universitas Gadjah Mada will host the 5th International Symposium on Congenital Anomaly and Developmental Biology (ISCADB) with the theme "Cross-disciplinary Approaches and Innovations in Understanding Congenital Anomalies". The Scientific Committee invites who are interested in sharing their work with the participants of the meeting, to submit their work in abstract submission for poster or oral presentation.

Topics of Abstract:
1. Perioperative Management
2. Pediatric-Neonatal Surgery
3. Intestinal Failure
4. Hepatobiliarypancreatic Surgery
5. Genomic Medicine
6. Endolaparoscopic Surgery
7. General Pediatric
8. Others

Guideline for Abstract

Write your abstract according to the following guidelines:

1. The abstract language is English
2. Abstracts should include original data that has not been previously published in a peer-reviewed journal.
3. We accept articles in the form of original research (systematic review/meta-analysis included) or case report/series.
4. Only those abstracts that have been reviewed and selected by the Abstract Review Committee may be presented.
5. The submitting author is automatically designed as the primary/presenting author. List of author(s), institution(s), city, and country should be written below the title. Authors should write their full names.
6. The submitting author should act as the presenting author and corresponding author. Affiliations should be numbered superscript behind each author's name
7. The original research or systematic review/meta-analysis abstract content should be organized in following structure:
    – Background and aims
    – Material and methods
    – Results
    – Conclusion
    – Keywords. A maximum of six keywords may be submitted.
8. Abstract can be from a case report/series with recommended content as follow:
    – Background
    – Case Illustration/presentation
    Note: There is no need to include discussion in this abstract body, but if there is one, it can be merged with the case illustration/presentation part
    – Conclusion
    – Keyword. A maximum of six keywords may be submitted
9. Abstract can be from a literature review in the form of unstructured abstract but should cover background, review, and conclusion. A maximum of six keywords may be submitted.
10. The authors may choose whether she/he will perform oral or poster presentation. However, final decision is in the abstract review committee. Presenters will be notified at which category their abstracts are accepted

for oral/poster presentation through email.

11. The accuracy of the submitted abstract is the responsibility of the authors. Errors made on submitted abstract are likely to appear in print. Authors should prepare and proofread their abstracts carefully prior to submission. The Abstract Review Committee will not proof-read or correct spelling, typographical, grammatical, or scientific errors, nor can changes be made once the abstract has been submitted

12. Once an abstract has been submitted, it cannot be withdrawn or edited. All PRESENTERS must register to attend the 4th ISCADB symposium and presenters will not be given a presentation slot until full payment is received for their registration.

Entry Requirements
- Project Title: Full name of the project
- Name of the university and Authors
- Word limit: 250 words, excluding spaces and must not contain any bibliographical references or appendices.
- No figures, tables, sketches, references and minimum use of abbreviations
- Table and pictures cannot be included in the abstract.
- Font: Times New Roman
- Font size: 11
- Line spacing: 1.5
- Format: PDF format (.pdf)

Each file submitted should be named in the following type:
Abstract_FirstAuthor_University_Category
i.e.
Abstract_Pramono_UGM_Oral Presentation
Abstract_Pramono_UGM_Poster Presentation
